PUMP SUMMIT AMERICAS

JUNE 26TH - 27TH, 2018

George R. Brown Convention Center
Houston, Texas, USA

Our Chairman Baha Tanju invites you to attend Pump Summit Americas!

It is my pleasure to take up the role of Chairman for the 2018 Pump Summit Americas Conference & Exhibition. I am extremely proud to be involved in the organization of an event that I believe to be an outstanding platform and a great resource to the pump industry. Pump Summit Americas addresses many pump applications across a variety of industries, including oil and gas, power generation, petrochemical and water and wastewater, among many others.

From my professional perspective, the Pump Summit Americas conference provides an opportunity for people from all sides of the pump industry to come together to discuss experiences, share insights and work together to resolve common challenges. You will be able to meet experts in fields as diverse as material specification, pump operations, environmental protection, enhanced efficiency and cryogenic applications. Innovations of the pump industry will be presented by expert end users, EPCs, manufacturers, suppliers, fabricators and distributors who all strive to share their knowledge. Sharing knowledge and net-

working between professionals is essential to gain benefits and grow within the industry, and to help ignite and inspire interest.

Along with the entire 2018 Pump Summit Americas Steering Committee, I look forward to presenting you with an informative conference program that will challenge you to learn more about the important role that pumps play in numerous applications.

I am looking forward to a great event and I am honored to have the opportunity to serve as your Chairman.

Sincerely,

Baha Tanju
Sr. Advisor, Subsea Control Systems
Chevron Energy Technology Company

PUMP SUMMIT AMERICAS 2018 STEERING COMMITTEE

Conference Chairman: Baha Tanju, Sr. Advisor Subsea Control Systems, Chevron Energy Company

Henri Azibert, Technical Director, Fluid Sealing Association

Joel Baulch, Director – Engineering & Technical Services, Teadit North America

Richard Bierman, Vibration Analyst, Chevron Phillips

Heinz P. Bloch, P.E.

James Boyle, Petrochemical Sales Engineer, West Penetone

Scott Boyson, Director Fluid Efficiency Services, A. W. Chesterton

Eugene L. Broerman, III, Principal Engineer, Southwest Research Institute

Dr. Klaus Brun, Machinery Program Director, Southwest Research Institute

Jeremy Cooper, Senior Mechanical Engineer, Rotating Equipment, Bechtel

Jack Creamer, Market Segment Manager, Schneider Electric

Chris Day, President, Teadit North America

Randy Estep, Pump & Seal Technical Resource Leader, The Dow Chemical Co.

Jean-Marc Fosseux, Mechanical & Rotating Equipment Expert, Technip USA

Hemanth Gaddehosur, Engineering Specialist, Technip USA

Ross Hegefeld, ERG Superintendent, Chevron Phillips

Michael Hotho, Chief Engineer, Rotating Equipment & Sect. Head, Technip USA

Michael Huebner, Principal Engineer, Flowserve Corporation

Brian Kalfrin, Regional Engineer, John Crane

Pedro Larregui, Senior Reliability, Engineer, Phillips 66

Charli Matthews, Founder & President, Empowering Pumps

Robert McIlvaine, President, McIlvaine Company

Michael Michaud, Executive Director, Hydraulic Institute

Kamran Z. Mirza, Consultant

Gopal Murti, Sr. Consultant Reliability Engineering, The Augustus Group

Dr. Lev Nelik, President, Pumping Machinery

Kevin Nyers, Mechanical Reliability Engineer, Cheniere Energy, Inc.

Robert X. Perez, Machinery Engineer, RXP Consulting

Ernesto Primera, Senior Machinery Reliability Engineer, Chevron

David Sanders, Consultant

Mark Sullivan, Director of Education and Marketing, Hydraulic Institute

Katie Switzer, Senior Reliability Engineer, Addivant

Brian Verdehem, Vice President of Sales, Odessa Pumps, a DistributionNOW Company

Alan Wilson, Mechanical Engineer, The Dow Chemical Co.

Jay Zaffino, Associate Rotating Equipment Engineer, Burns & McDonnell

PUMP SUMMIT AMERICAS

JUNE 26TH - 27TH, 2018
George R. Brown Convention Center
Houston, Texas, USA

Be part of the Pump Summit Americas 2018 Conference & Exhibition!

The Pump Summit Americas 2018 Conference will cover a variety of pump-related topics that are essential to today's pump industry. To begin each day there will be plenary presentations on a number of key topics in today's pump market, including industry standards, information management and obstacles to achieving more reliable pumps.

Informative workshops will cover the following topics:

- Pumping Systems Optimization
- Pump Control Systems
- Maintenance, Service & Repair
- Troubleshooting Pumps & Sealing Systems
- Machinery Health
- Reliability Best Practices
- Specialty Pumps
- Pump Installation
- Pulsating Flow Problems & Solutions

SPEAKERS' CORNER

Throughout the 2-day event there will be dynamic and interactive presentations on the expo floor. If you would like to present at our Speakers' Corner, please contact Deirdre Morgan (d.morgan@kci-world.com).

Exhibit to the American Market!

The conference will be further complemented by the exhibition, where manufacturers, suppliers, fabricators and distributors from around North America and the rest of the world will showcase their latest products and establish business relationships for the years ahead. Whether you are long-time participants or are considering attending for the first time, you will encounter a high level of expertise and networking opportunities all presented in an informal, friendly and social atmosphere aimed at exchanging useful information. It is an important event not to be missed!

PUMP SUMMIT AMERICAS

JUNE 26TH - 27TH, 2018

George R. Brown Convention Center
