

FOR IMMEDIATE RELEASE

August 2017

*America's premier networking event for pump experts returns!*

Houston, TX – Pump Engineer is pleased to present the second **Pump Summit Americas Conference & Exhibition**, which will take place on June 25<sup>th</sup> and 26<sup>th</sup>, 2018 in Houston, Texas. America's premier networking event for pump experts will take place in the George R. Brown Convention Center and will be held alongside the Fugitive Emissions Summit Americas.

The Pump Summit Americas 2018 Conference & Exhibition aims to bring together end users, EPCs, manufacturers, distributors and OEMs from a variety of industries to network and share their knowledge of pump applications. The goal is to create a community and to work together to educate the pump industry on a variety of topics.

Such topics will be: Pumping Systems Optimization, Pump Control Systems, Maintenance, Service & Repair, Troubleshooting Pumps & Sealing Systems, Machinery Health, Reliability Best Practices, Specialty Pumps, Pump Installation and Pulsating Flow Problems & Solutions.
